Subject: Slides for review
Attachments: NAS Forest conventional and Biopesticides 02-23-2018.pptx; Seed Treatment Presentation__Draft Feb 20 2018.pptx; Tree biopesticides - v3.pptx

Rick,

Attached are three presentations:

- John Kough's (BPPD) slides for the NAS panel on Friday. Anne said John's presentation is from the CFR and previous NAS presentations that he has done with Bill Jordan and she thinks it should not need OGC review. See Anne and John's email below for background. (I will add to list)
- Julie Van Alstine's (HED) seed treatment slides for the APPCO meeting in march
- Marcia Anderson's presentation for the Garden State Tree Conference on March 8, 2018. She will be speaking on biopesticides as tools for use by arborists and the tree care industry. Her audience will be the New Jersey Arborists Chapter of the International Society of Arboriculture. Anne said Marcia is a licensed tree expert and uniquely qualified to engage with this group. The goal of her participation is to raise awareness within the industry of the many biopesticides that are at the disposal of arborists for use in integrated pest management programs. (I will add to list)

Subject: FW: Slides for 2/23 NAS panel

Darlene, we're sending forward John Kough's slides/talking points for the presentation this Friday for the NAS panel. The material is largely from the CFR and previous NAS presentations that John as done with Bill Jordan and should not need further OGC review. Please let us know if there's anything else you need.

Subject: Slides for 2/23 NAS panel

Bob, Anne and John,

Please see the attached presentation for this Friday. Let me know if there are any corrections/edits/comments. I am focusing on the ecoeffects as this is the main focus of forestry uses but will mention the occupational residential exposure issues if they come up for a non-food use. Thanks for looking at the slides.

John K.
